Languages: • Javascript • HTML • CSS •  
Java • SQL • Reactjs • Redux • AEM  
Mysql • H2 Database • MongoDB • Sql  
SERVER

### TECHNOLOGY

Git/Github • AWS • Linux  
DBMS • Windows • Postman  
AEM • Azure

### CERTIFICATIONS

#### AZURE CERTIFICATION

Udemy azure 900 certification

#### ANDROID APP DEVELOPMENT USING FLUTTER

I am a front-end developer with 3 years of experience specializing in React.js, HTML, CSS, JavaScript, and TypeScript. I have hands-on experience integrating dynamic APIs, implementing secure SSO authentication using MSAL, and building scalable, maintainable web applications. I am familiar with containerization using Docker, including building Docker images and preparing applications for deployment. I have experience hosting and managing applications on Microsoft Azure, ensuring performance, security, and reliability.

### EXPERIENCE (COGNIZANT 3+)

#### FULL STACK DEVELOPER

Aug 2022-Apr 2024

#### PROJECT TITLE: ASKVZ CHAT BOT FOR VERIZON

#### TELECOMMUNICATION. | FRONT END DEVELOPMENT

- **Specification:** Collaborated in the Comprehensive redesign of different websites focusing on the development of key UI components.
- Translates Fig-ma design and wire frames into High quality codes and wrote application interface via JavaScript using react.js Workflow.
- Developed a latest user facing features using react.js and build reusable components and Front end Libraries for future use UI Components.

Bharati Vidyapeeth Institute of  
Computer Applications and  
Management

## **SOCIETIES**

**Interact Society at BIRLA INSTITUTE OF  
TECHNOLOGY**

**Treasurer in society**

## **Reactjs Frontend Developer**

**May 2024- Apl 2024**

**PROJECT TITLE: C-PRO FOR ABBVIE CLIENT may 2024 –**

- **Specification :** Building UI Page of Customer Databases for C-PRO Client of AbbVie, from using React.js, MySQL and h2 database, calling it from back-end using micro-services features of Java and fetching it on postman, showing it on h2-databases and the UI page which is a single page UI Application, unidirectional .
- We have used Route to connect all pages.
- C-PRO is a project for pharmaceutical companies, to collect and manage all the Patient details, as well as medicine details in a UI Based architecture design and using React.js from Front-end .
- Developed new features and enhancements for the Application using React.js .
- Collaborated with cross-functional teams to ensure timely delivery of project milestones.

## **OPTUM UHG**

May 2025 -Present

- Worked on a data visualization and reporting tool for Optum (a UHG company), focusing on sales data:
- Integrated React.js frontend with Java-based backend services using Swagger (OpenAPI) documentation.

## **PERSONAL PROJECT**

**EMPLOYEE MANAGEMENT USING REACT JS ([Link](#))**

Jan 2022

- Built a responsive Employee Management System using React with authentication, dashboard, CRUD operations, search/filter, image preview, and print functionality.
- Implemented advanced features including live profile image preview, search & filter functionality, and print option for employee details, ensuring a seamless user experience.

**MOTIONA PORTFOLIO([Link](#))**

Aug 2025

- I designed and developed a high-quality, responsive portfolio using React, JavaScript, Tailwind CSS, and Framer Motion, delivering a clean code.
- Optimized **application performance** through code-splitting, lazy loading, and reducing render times for better user experience.
